

Re: Cancellation of ePageCity services

As primary decision-making contact on record with your office, please cancel all services I currently am engaged in with ePageCity, Inc. These include website and email services provided to me or the party I represent by ePageCity, Inc.

I affirm that I have the duly appointed responsibility to terminate this contract and absolve ePageCity from any resultant effect of my website (and email, if provided by ePageCity) being shut down.

I also state that I am aware that any content and functionality on the website as well as any data collected on the website (such as email form requests), etc. will be erased as soon as this termination request has been processed. If ePageCity supplies my email services, all emails stored on the email server will also be purged. ePageCity is not required to provide any of these materials in the future.

The termination should be processed before the next billing cycle (assuming that this notice is dated at least 7 days from that billing cycle). The website should be shut down on the day before that next billing cycle or, if that day falls on a weekend, on the Friday preceding that.

I am aware that ePageCity does not bear any further responsibility associated to domain name(s) and related brands. This is all presented in accordance with the User Agreement that I agreed to enter into by signing the original work order.

On account termination, your site will be permanently deleted. Optional selections:

☐ **Check here** if you want a copy of the Drupal Installation files so that another Drupal Developer can install the site at another host (Cost \$300). ePageCity will not provide any technical assistance.

☐ **Check here** if you want ePageCity to install the site on another Drupal Compatible host (Minimum Cost \$1500, firm quote provided upon request). Payment will need to be received before account cancellation can be processed.
